

Post day three activity

Evaluating the programme framework

As a policy maker you will often have to evaluate a range of written documents, e.g. draft frameworks, vision and policy statements, and proposals. In this activity you can draw on your existing evaluation skills and hopefully refine them.

What you have to do

You can work with another person to evaluate one of the programme frameworks that was developed earlier in the day. You can use the questions below to guide your evaluation. Record your responses in the open spaces below each question.

You will get an opportunity to share your ideas at a plenary session tomorrow morning.

Questions to guide your evaluation of the programme framework

1. What do you think is missing from the framework?

2. What do you think will work well? Why?

3. What do you think will not work well? Why?

4. How well does the framework link with the vision developed earlier?

5. What suggestions do you have for improving the framework?
